MANAGEMENT INFORMATION CIRCULAR

For the Annual General Meeting of Shareholders to be held on May 27, 2011
(as at April 26, 2011, except as indicated)

INFORMATION REGARDING ORGANIZATION AND CONDUCT OF MEETING

Solicitation of Proxies

This Management Information Circular (the "Circular") is furnished in connection with the solicitation of proxies by the management of the Company for use at the Annual General Meeting of the holders of common shares ("Shares") of the Company (the "Meeting") to be held at the Rideau Club, 99 Bank Street, 15th Floor, Ottawa, Ontario, K1P 6B9 on May 27, 2011 at 12:30 p.m. EST and for the purposes set forth in the accompanying Notice of Meeting and at any adjournment(s) or postponement(s) thereof. The solicitation of proxies is expected to be primarily by mail, but may be supplemented by telephone, Internet or other personal contact by directors of the Company. The cost of solicitation of proxies will be borne directly by the Company.

Appointment of Proxies

If your intention is not to be present in person at the Meeting, you are asked to complete and return the enclosed form of proxy. The form of proxy must be dated and executed by a registered shareholder or the attorney of such shareholder, duly authorized in writing, and deposited with **Computershare Investor Services Inc., Proxy Dept., 100 University Avenue, 9th Floor, Toronto, Ontario, M5J 2Y1** no later than 4:30 p.m. EST two business days prior to the Meeting or, if the Meeting is adjourned or postponed, no later than 4:30 p.m. EST two business days preceding the date to which the Meeting is adjourned or postponed, or to the Secretary of the Company or Chairman of the Meeting at the time and place of the Meeting.

The persons designated in the form of proxy are directors or officers of the Company. **Each shareholder has the right to appoint a person to represent such shareholder at the Meeting, other than the persons designated in the form of proxy. A registered shareholder desiring to appoint some other person to represent such shareholder at the Meeting may do so by striking out the names of the persons designated and by inserting such other person's name in the blank space provided in the form of proxy or by submitting another appropriate form of proxy. A person acting as proxy need not be a shareholder of the Company.**

Revocation of Proxies

A registered shareholder giving a proxy has the power to revoke it as to any matter on which a vote has not already been cast pursuant to the authority conferred by such proxy and may do so either: (i) by delivering another properly executed proxy bearing a later date to **Computershare Investor Services Inc., Proxy Dept., 100 University Avenue, 9th Floor, Toronto, Ontario, M5J 2Y1** no later than 4:30 p.m. EST on the last business day prior to the Meeting or, if the Meeting is adjourned or postponed, no later than 4:30 p.m. EST on the last business day preceding the date to which the Meeting is adjourned or postponed, or to the Secretary of the Company or Chairman of the Meeting at the time and place of the Meeting; or (ii) by depositing, either with

Computershare Investor Services Inc. (the “**Transfer Agent**”) at the above mentioned address prior to the day of the Meeting or any adjournments or postponements thereof, or with the Secretary of the Company or Chairman of the Meeting at the time and place of the Meeting, or any adjournments or postponements thereof, an instrument in writing revoking the proxy and executed by the registered shareholder or by his attorney, duly authorized in writing. If the registered shareholder is a corporation, the instrument must be executed by a duly authorized officer under its corporate seal or accompanied by a corporate resolution authorizing the signature.

Voting of Shares Represented By Proxies

If the enclosed form of proxy is properly completed and submitted in favour of the persons designated in the printed portion thereof, the shares represented by such form of proxy will be voted or withheld from voting on any ballot that may be called for in accordance with the instructions of the shareholder and where the person whose proxy is solicited specifies a choice with respect to any matter identified therein, the shares shall be voted in accordance with the specification so made. **Where shareholders have not specified in the form of proxy the manner in which the designated proxy holders are required to vote the shares represented thereby as to any matter to be voted on, such shares will be voted on any ballot that may be called for in favour of such matter.**

The enclosed form of proxy confers discretionary authority upon the persons named therein with respect to amendments or variations to the matters identified in the Notice of Meeting and with respect to matters other than those identified in the Notice of Meeting, which may properly come before the Meeting. As of the date hereof, the management of the Company is not aware that any such amendments, variations, or other matters are to be presented for action at the Meeting. **If any matters which are not now known to the management of the Company should properly come before the Meeting, then on any ballot that may be called for, the persons appointed as proxy will vote on such matters in a manner as such persons consider to be proper.**

Advice to Beneficial Shareholders

Only Registered Shareholders or the persons they appoint as their proxies are permitted to vote at the Meeting. However, in many cases, Shares beneficially owned by a person (a “**Non-Registered Holder**”) are registered either (a) in the name of an intermediary that the Non-Registered Holder deals with in respect of the shares (intermediaries include, among others, banks, trust companies, securities dealers or brokers and trustees or administrators of self-administered registered retirement savings plans, registered retirement income funds, registered education savings plans and similar plans), or (b) in the name of a clearing agency (such as CDS Clearing and Depository Services Inc.) of which the intermediary is a participant. In accordance with the requirements of National Instrument 54-101 – *Communication with Beneficial Owners of Securities of a Reporting Issuer*, Ozone will be distributing copies of the Notice of Meeting, this Circular, and the form of proxy (collectively, the “**Meeting Materials**”) to the clearing agencies and Intermediaries for onward distribution to Non-Registered Holders.

Intermediaries are required to forward the Meeting Materials to Non-Registered Holders unless a Non-Registered Holder has waived the right to receive them. Very often, Intermediaries will use service companies to forward the Meeting Materials to Non-Registered Holders who have not waived the right to receive the Meeting Materials. These Non-Registered Holders will either:

- (i) be given a form of proxy which has already been signed by the intermediary (typically by a facsimile, stamped signature), which is restricted as to the number of shares beneficially owned by the Non-Registered Holder but which is otherwise not completed. Because the intermediary has already signed the form of proxy, this form of proxy is not required to be signed by the Non-Registered Holder when submitting the proxy. In this case, the Non-Registered Holder who wishes to submit a proxy should otherwise properly complete the form of proxy and deliver it to the Transfer Agent as set out above; or
- (ii) more typically, be given a form which, when properly completed and signed by the Non-Registered Holder and returned to the intermediary or its service company, will constitute voting instructions (often called a “voting information form”) which the intermediary must follow.

In either case, the purpose of this procedure is to permit Non-Registered Holders to direct the voting of the Shares which they beneficially own. Should a Non-Registered Holder who receives the form of proxy or voting instruction form wish to vote at the Meeting in person, the Non-Registered Holder should strike out the persons named in the form of proxy and insert the Non-Registered Holder's name in the blank space provided or following the instructions in the voting instruction form. In either case, Non-Registered Holders should carefully follow the instructions of their intermediary, including those regarding when and where the form of proxy or proxy authorization form is to be delivered.

If you receive either a proxy or a voting instruction form and wish to attend and vote at the Meeting in person (or have another person attend and vote on your behalf), you should strike out the names of the persons named in the proxy and insert yours (or such other person's name) in the blank space provided or, in the case of a voting instruction form, follow the corresponding instructions on the form. **In either case, please carefully follow the instructions of your broker, nominee or other service company.**

Record Date

The Company has set April 26, 2011 as the record date for notice of the Meeting and for voting. Only shareholders of record as at that date are entitled to receive notice of and vote at the Meeting, subject to the provisions of the *Canada Business Corporations Act*. Nevertheless, failure to receive the notice does not revoke the shareholder's right to vote at the Meeting.

Authorized Capital, Voting Shares and Principal Holders

The authorized capital of the Company consists of an unlimited number of Shares, of which 82,905,031 Shares are issued and outstanding as at the date hereof. Each issued and outstanding Share is entitled to one vote. Only persons who are shareholders of record at 5:00 p.m. EST on April 26, 2011 will be entitled to attend and vote at the Meeting, in person or by proxy, except to the extent that any shareholder transfers any of his or her Shares prior to the Meeting. In such case, a transferee of shares shall be entitled to vote at the Meeting if he or she produces properly endorsed certificates for such Shares or otherwise establishes that he or she owns the Shares and has demanded not later than 10 calendar days before the Meeting that his or her name be included on the list of shareholders entitled to vote at the Meeting.

As at the date hereof, to the knowledge of the management of the Company, no persons or companies beneficially own, directly or indirectly, or exercise control or direction over more than 10% of the voting rights attached to all outstanding Shares.

Financial Statements

The audited financial statements of the Company as at and for the fiscal year ended December 31, 2010, and the accompanying management discussion and analysis ("MD&A"), were filed on SEDAR on March 31, 2011. **The form of proxy includes an election to continue to receive the interim and/or annual financial statements and MD&A for 2011 and subsequent fiscal years.**

ANNUAL GENERAL MEETING MATTERS

Compensation Committee Composition and Process

The Compensation Committee reviews the Company's executive compensation and stock option policies and the compensation paid to the Chief Executive Officer and other officers of the Company. The Committee reports to the Board of Directors in its entirety for final approval. The Committee also reviews the design and competitiveness of the Company's compensation, stock option and benefit programs generally.

The compensation of Executive Officers is composed of three main elements: a base salary, potential bonuses and equity participation through the allocation of incentive stock Options. The Compensation Committee establishes the levels of remuneration taking into consideration level of expertise of the executive officer, length of service to the Company, responsibilities related to the position, individuals' performance and salaries paid for similar executive positions of other companies of comparable size and at a similar stage of development.

The Company's executive compensation program and stock Options are administered by the Compensation Committee, made up of independent members of the Board of Directors. The members of the Compensation Committee to May 27, 2011 were Mr. Halvorson, Mr. Carmel, and Mr. Downey.

Compensation Objectives and Goals

Objective of Compensation Program

The Company's compensation program is designed to attract, retain and motivate highly qualified Executive Officers, while at the same time promoting an alignment of interests between such Executive Officers and the Company's shareholders.

The Company is an exploration stage mining company and as such will not be generating revenues from operations for a period of time. As a result, the use of traditional performance standards, such as revenue and corporate profitability, are not considered by the Compensation Committee to be appropriate in the evaluation of corporate or NEO performance. The compensation of the senior officers is based, in substantial part, on industry compensation practices, trends in the mining industry as well as achievement of the Company's business plans. As the Company continues to develop and mature, the Compensation Committee will commission an established company with expertise in salary surveys to complete a full review of its executive compensation.

Elements of Compensation Program

The Company's compensation program is comprised of base salary, annual incentive compensation and stock option awards. The Compensation Committee reviews each component of compensation for each officer and makes compensation recommendations to the Board. In evaluating each officer, the Compensation Committee considers among other things, the recommendations of the CEO. The Board of Directors review the recommendations and has complete discretion over the final amount and composition of each officer's compensation.

Base Salary

The primary element of the Company's compensation program is base salary. The Company's view is that a competitive base salary is a necessary element for attracting and retaining qualified Executive Officers. The amount payable to an Executive Officer as base salary is determined primarily by the level of responsibility and the importance of the position to the Company, and the range of salaries offered by comparable companies in a similar stage of development within the mining industry. (see discussion below under heading "Comparator Group"). Generally, the Company's policy is to set base salaries in the range of the 25th to 75th percentile of salaries paid to Executives in the comparator group with similar experience and responsibilities. The Compensation Committee completed a review of base salaries at the end of 2010 and it was determined that adjustments were required for 2011 in order to ensure Executive Officer salaries remain competitive as compared to its peer group.

Comparator Group

The Company's compensation program was developed with the objective of providing compensation that is competitive with that offered by comparable companies in the mineral exploration and mining industries. The comparator group comprised of the following companies: International Tower Hill Mines Ltd., Brett Resources Inc., Rio Novo Gold Inc., Adamus Resources Ltd., Gryphon Gold Corporation, Volta Resources Inc., and Rainy River Resources Ltd. The companies in the comparator group were chosen based on having one or more of the following criteria: exploration stage, identified resources, and similarities in types of gold deposits. The benchmark relied upon consists of salary, stock options and annual incentive compensation payments.

Annual Incentive Compensation

An annual incentive is a short-term variable element of compensation that may reward an executive officer for corporate and/or individual performance and is typically determined with reference to pre-set corporate and/or individual performance objectives. Annual incentives are awarded up to the targeted percentage ranges on the basis of the achievement and/or over-achievement of pre-set corporate and personal objectives for the year. These may include both quantitative and qualitative objectives for both the Company and the individual executive officer. The payment of a bonus in a particular year is discretionary and based on evaluation by the Compensation Committee against pre-set objectives as described. On the recommendation of the Compensation Committee, all bonuses are approved by the full Board of Directors. The table below sets out the target incentive bonus ranges for each NEO:

NEO	Title	Range
Ron Little	President & CEO	35 to 55%
Pascal Marquis	Senior VP Exploration	30 to 50%
Sean Homuth	CFO	25 to 45%
George McTaggart	VP Corporate Development	20 to 35%
Joe McCoy	VP Administration	20 to 35%

* The lower end of the range is based on satisfactory personal performance and meeting objectives with the remainder based on satisfactory market performance.

* Market performance will be based on Orezone's share price performance relative to: S&P/TSX Global Gold Index, as well as the TSX performance for the period.

* The entire bonus can be increased by up to 100% at the discretion of the Compensation Committee based on outstanding market performance.

Following completion of the 2010 financial year, the Compensation Committee met to review the performance of each of the NEOs and the Company against the corporate objectives that were determined at the beginning of the year. These objectives included: (1) issuing a revised NI 43-101 compliant Resource Update on the Company's Bomboré project; (2) completing a Preliminary Economic Assessment and Pre-feasibility study on the Bomboré and Segá projects; (3) increase share price performance compared to the market; (4) raising sufficient capital that would allow a production decision if feasibility type studies are positive; (5) monitor costs and ensure performance is within forecasts and results are achieved. The Compensation Committee considered each objective and the success of the NEOs in achieving each objective during the year. The Compensation Committee also undertook a review of overall compensation components, including base salary, against the Company's peer group. The Compensation Committee, taking these factors into consideration, determined the bonus award for each NEO, and made its recommendations to the Board. For the year 2010, cash bonuses were awarded to each NEO on the basis that the Company overachieved on all its objectives and, generally, overall compensation in the prior year was below average relative to the Company's peer group.

Option-Based Awards

The Company's Compensation Committee is mandated to review and make recommendations to the Board regarding the remuneration of executive officers, the granting of stock options to directors, executive officers

and key employees and service providers of the Company and the remuneration and compensation policies, including the current Stock Option Plan.

The grant of stock Options to NEOs and employees is determined by the Board of Directors. The role of the Compensation Committee is to recommend for approval by the full Board, stock option awards to be granted on a periodic basis. The NEOs also play a role in administering the Stock Option Plan, in that they recommend to the Compensation Committee for approval, stock-based compensation awards for non-executive employees, advisors and consultants.

The current Stock Option Plan provides for the grant of stock options to directors, executive officers and key employees, advisors and consultants of the Company and its subsidiaries for the purpose of advancing the interests of the Company and its shareholders through the motivation, attraction and retention of these individuals.

Individual grants are determined by an assessment of the individual's current and expected future performance, level of responsibilities, the importance of his or her position and contribution to the Company, and previous option grants and exercise prices.

Performance Graph

The chart below compares the total cumulative shareholder return from the date of listing, February 25, 2009, assuming \$100 was invested in the Shares on February 25, 2009 (being the date the Company became a reporting issuer and obtained a listing on the TSX) with the total cumulative return on \$100 invested in the S&P/TSX Composite Index over the same period.

Although the Board considers the Company's share performance as a factor in determining executive compensation, there is no direct link between the Company's share performance and total compensation paid to NEOs.

SECURITIES AUTHORIZED FOR ISSUANCE UNDER THE 2009 STOCK OPTION PLAN

The Company has a stock option plan (the "Option Plan") under which Options have been granted and have not yet been exercised. The Option Plan was approved at a special meeting of shareholders held on May 15, 2009. The Option Plan was created for the benefit of the directors, officers and employees of the Company, or any of its subsidiaries, as well as persons providing services to the Company or any of its subsidiaries (the "Admissible Persons"). The objective of the Option Plan is to create an incentive for Admissible Persons, by offering them the possibility of acquiring participation in the Company through the purchase of Shares of the Company under the Option Plan. No financial assistance is made available to Admissible Persons under the Option Plan.

The exercise price, terms, and conditions of the Options are established by the directors in accordance with the policies of the regulatory authorities having jurisdiction over the securities of the Company. The Option Plan provides that the exercise price of the Options granted is determined by the Board of Directors but cannot be lower than the volume weighted average price over the five days before the grant.

The number of common shares issuable to insiders under the Option Plan, together with any other previously established or proposed share compensation arrangements, cannot exceed 10% of the Company's issued and outstanding common shares at any time.

The number of common shares issued to insiders under the Option Plan, together with any other previously established or proposed share compensation arrangements, within any one-year period shall not exceed 10% of the Company's issued and outstanding common shares. The maximum number of Optioned Shares which may be issued to any one insider under the Option Plan, together with any other previously established or proposed share compensation arrangements, within a one year period shall not exceed 5% of the Company's issued and outstanding common shares.

The Board of Directors sets the term of the Options, which cannot exceed 10 years. Options terminate 30 days after an optionee ceases to be an Admissible Person or after 60 days in the event that the optionee ceases to be an Admissible Person by reason of retirement, disability or death, unless sooner terminated in accordance with the terms, conditions and limitations of the Option. Options are non-assignable and non-transferable. The Board may terminate the Option Plan at any time with respect to common shares not yet subject to option, or amend the Option Plan at any time subject to obtaining any required approvals from applicable stock exchanges or regulatory authorities.

On March 28, 2011, the Board of Directors of the Company approved certain amendments (the "**Amendments**") to the Option Plan. The Amendments allow the Corporation to make source deductions in respect of any stock option benefit and to remit to the applicable governmental authority an amount on account of tax on the value of the taxable benefit associated with the issuance of Common Shares on exercise of Options. If such withholdings are required, the Amendments require an Optionee, as defined in the Option Plan, to: (i) pay to the Corporation, in addition to the exercise price for the Options, sufficient cash as is reasonably determined by the Corporation to be the amount necessary to permit the required tax remittance; or (ii) permit the Corporation to sell or cause to be sold by a broker or agent engaged by the Corporation, on behalf of the Optionee, such number of Common Shares issuable to the Optionee on the exercise of such Options as is sufficient to fund the Corporation's obligations to make source deductions; or (iii) make other arrangements acceptable to the Corporation to fund the required tax remittance.

The following table sets forth details of the Plan as at April 8th, 2011.

	Number of securities to be issued upon exercise of outstanding Options (#)	Weighted-average exercise price of outstanding Options (\$)	Number of securities remaining available for future issuance under equity compensation plans ¹ (#)
Equity compensation plans approved by securityholders	6,545,500	1.53	760,503
Equity compensation plans not approved by securityholders	Nil	Nil	Nil
Total	6,545,500	1.53	760,503

- 1 The 2009 Stock Option Plan is a rolling plan which allows for a maximum of 10% of the total outstanding Shares to be issued in connection with stock options exercised under the Option Plan.

INDEBTEDNESS OF DIRECTORS AND SENIOR OFFICERS

No director or senior officer of the Company, or any associates of such persons, are indebted to the Company and no indebtedness of such persons is the subject of a guarantee, support agreement, letter of credit or other similar arrangement provided by the Company.

INTEREST OF INFORMED PERSONS IN MATERIAL TRANSACTIONS

Mr. Paul Carmel, who is not standing for re-election to the Board of Directors of the Company, is a resident of Montreal, Quebec, and is the Managing Director, Head of Mining, Investment Banking at Desjardins Securities Inc. ("**Desjardins**"). Desjardins was a part of the underwriting syndicate involved in the equity financings undertaken by Orezone and which closed on January 26, 2010 (the "**January Offering**") and December 21, 2010 (the "**December Offering**", and, together with the January Offering, the "**Offerings**"). Consequently, the Company may have been considered to be a "connected issuer" to Desjardins under applicable Canadian securities legislation.

The decision to distribute the securities offered under the short form prospectuses and the determination of the terms of the Offerings were based on (i) negotiations between the Company, Canaccord Genuity Corp. and CIBC World Markets Inc. with respect to the January Offering, and (ii) negotiations between the Company and Canaccord Genuity Corp. with respect to the December Offering. Desjardins was not involved in the decision to commence the Offerings and their consent and that of their affiliates was not required to commence the Offerings. Desjardins was not involved in the determination of the terms of the Offerings. As a consequence of the Offerings, Desjardins received a 10% share and a 20% share of the underwriting fee paid in connection with the January Offering and the December Offering, respectively.

Mr. Carmel declared his interest in the Offerings and abstained from voting on the Offerings in his capacity as a director of the Company. Mr. Carmel did not otherwise take part in the decision of the Company to distribute the securities pursuant to the Offerings and he did not require, suggest or consent to the Offerings. Mr. Carmel was not involved in negotiating the terms of the Offerings. Mr. Carmel did not receive any of the proceeds of the Offerings and did not otherwise obtain any direct benefit from the Offerings.

Except as disclosed in this Circular, no informed person of the Company, proposed director of the Company, or any associate or affiliate of the foregoing, has had any material interest, direct or indirect, in any transaction or proposed transaction which has materially affected or would materially affect the Company or any of its subsidiaries since the commencement of the Company's most recently completed fiscal year.

CORPORATE GOVERNANCE PRACTICES

The Company's corporate governance practices are as follows:

1. Board of Directors

The majority of the Board of Directors are independent and consist of Michael Halvorson, Alain Krushnisky, James Gill, Patrick Downey and Keith Peck. Ronald Little is Chief Executive Officer and therefore is not independent.

The Board of Directors does not currently have a Chairman due to the small size of the Board of Directors, the Company being at the development stage, and the fact that all independent directors are senior and experienced members of the mining and exploration industry. Each of the independent directors provides leadership and direction according to the circumstances.

Ron Little is a director of Global Minerals Ltd. and Northern Graphite Corporation.

Michael Halvorson is a director of Novus Energy Inc.

Alain Krushnisky is a director of Cogitore Resources Inc. and Majescor Resources Inc.

James Gill is a director of Thundermin Resources Inc. and TriAusMin Limited.

Patrick Downey is a director of Aura Minerals Inc., Andina Minerals Inc., Mundoro Capital Inc., Corex Gold Corporation, Argentex Mining Corporation and Pan Global Resources Inc.

The Board of Directors held eight meetings and used consent resolutions 9 times in 2010 when meetings were not possible. Mr. Little attended all meetings and Messrs. Halvorson and Krushnisky also attended all meetings. Mr. Carmel attended five meetings and Dr. Gill attended 6 meetings. During the year, a number of informal discussions were held between management and the Board of Directors and between Board members, and some resolutions are passed through the use of unanimous consent resolutions.

2. Board Mandate

The Board has ultimate responsibility for the management of the Company. It directs the business operations and the internal affairs of the Company. However, it does not perform the ongoing management, which is delegated to the president and chief executive officer and the other officers. To perform its responsibilities effectively, the Board meets periodically (at least once per quarter) and the committees of the Board meet between these meetings, as needed. The Board of Directors meets informally without the officers at the end of each meeting of the Board, or, when needed, at other specific times during the year. The Mandate of the Board of Directors is attached hereto as Appendix "A".

3. Position Descriptions

The Company has developed an Audit Committee Charter and a Board of Directors Mandate to further define the responsibilities of Board members but has not felt it necessary to develop position descriptions for the chair of each committee of the Board of Directors due to the small size of the Company and its Board of Directors, the stage of the Company's development, and to enable the Board and its committees to operate in an efficient and flexible manner.

The Company also does not have a written position description for the CEO due to the size of the Company and its stage of development. The Board of Directors will consider developing a position description for the CEO as the Company grows and evolves.

4. Ethical Business Conduct

The Company's Code of Business Conduct can be viewed on the Company's website or a copy can be obtained by contacting the Company. The Company has also instituted a "whistleblower" program whereby infractions can be reported to the Chair of the Audit Committee. This policy has been distributed to employees and can be viewed on the Company's website.

No material change report has been filed that pertains to any conduct of a director or NEO that constitutes a departure from the Code of Business Conduct.

Any director or officer that has a material interest in a transaction or agreement that is being considered by the Company is required to declare a conflict of interest and is excluded from voting and from the decision making process with respect to that issue.

5. Nomination of Directors

The Board of Directors as a whole, which consists of five independent directors and one non-independent director, reviews the composition of the Board and its committees and recommends changes, if appropriate, evaluates potential candidates and proposes nominees.

6. Compensation

The Company's Compensation Committee consists of Mr. Halvorson (Chair) and Mr. Downey, both of whom are independent directors. In determining compensation levels for directors and officers, the Compensation Committee assesses the experience and qualifications of the individuals involved, reviews industry standards for companies at a comparable stage of development and evaluates these factors in light of corporate resources, objectives and performance. The Compensation Committee then makes a recommendation to the full Board with respect to salaries, bonuses and directors' fees and the full Board makes the final decision with all conflicts declared in advance.

No compensation consultant or advisor has been retained by the Company to date.

7. Other Board Committees

The Company also has a Corporate Governance Committee which presently consists of Mr. Krushnisky (Chair) and Mr. Halvorson, and an Audit Committee which consists of Mr. Krushnisky (Chair), Mr. Peck (if elected) and Dr. Gill, all of whom are independent directors. The Corporate Governance Committee is responsible for monitoring the company's Code of Business Conduct and Board Mandate, for reviewing the Board's performance and related party transactions, and for engaging outside consultants when deemed necessary.

8. Assessments

The Company has a relatively small Board which provides the opportunity for all directors to actively interact and to become familiar with one another. Any issues with respect to effectiveness and contribution readily become apparent in this environment and are brought to the attention of the Board by the director concerned.

APPENDIX “A” – BOARD MANDATE

I. Purpose and Mandate

The Board of Directors' primary responsibilities are the development of policies and procedures by which the business and affairs of the Company are managed, and the supervision of management with respect to the implementation and adoption of those policies and procedures. Directors are guided by applicable corporate laws, by Canadian and US regulatory requirements, and by the duties and responsibilities agreed to and approved by the Board, and are accountable to shareholders of the Company.

All material transactions must be reviewed and approved by the Board prior to implementation. Any responsibility that is not delegated to senior management or to a Board committee remains with the full Board. The Board's responsibilities include providing guidance to management and reviewing and, if thought fit, approving, the opportunities presented by management. The Board relies on management for the identification, analysis and presentation of opportunities, preparation of regular reports, and provision of the support, information and analysis necessary for the Board to effectively fulfill its obligations.

The Board has the responsibility to participate with management in developing and approving the Company's mission statement, its objectives and goals, the strategic Plans relating thereto, and monitoring subsequent performance against those Plans, objectives and goals.

The Board's Mandate also includes identifying risks with respect to the Company's business, ensuring the implementation of appropriate measures to mitigate those risks, monitoring management, reviewing quarterly financial performance and ensuring the timely disclosure of material transactions both through the issuance of news releases and inclusion in the financial statements.

The number of Board meetings held annually, as well as the related agenda, will reflect the level and nature of the Company's activities. Approvals evidenced through the use of unanimous consent resolutions will be used where appropriate.

The individual performance of each director and the collective performance of the Board of Directors as a whole will be evaluated on an ongoing and continual basis.

All Directors will be expected to exercise their duties and responsibilities in a manner that is consistent with this mandate and with the best interests of the Company and its shareholders.
