 - a. that is required to be filed with the Ontario Securities Commission (the “**OSC**”), any other securities regulatory authority in Canada on the System for Electronic Document Analysis and Retrieval (“**SEDAR**”) web site at www.sedar.com or otherwise;
 - b. that is not required to be filed with the OSC or any other securities regulatory authority in Canada or on the SEDAR web site but is so filed;

 - d. the content of which would reasonably be expected to affect the market price or value of the securities of the Company.
- (iii) A “**misrepresentation**” means:
 - a. an untrue statement of a material fact (as defined herein); or
 - b. an omission to state a material fact that is required to be stated or that is necessary to make a statement not misleading in the circumstances in which it is made.

g) For the purpose of this Policy, the following documents are “Core Documents”:

- (i) prospectuses;
- (ii) take-over bid circulars;
- (iii) issuer bid circulars;
- (iv) directors’ circulars;

- (vii) annual information forms;
- (viii) information circulars;

- (ix) annual financial statements;
- (x) interim financial statements; and
- (xi) material change reports.

Prior to the time that any Document is to be released to the public, filed with the OSC, any other securities regulatory authority in Canada, or filed on SEDAR, the following procedures must be observed:

It is recognized that the requirement to make prompt disclosure of material changes by way of press releases may make it difficult to have certain press releases and material change reports reviewed by the Directors; and
- (vii) in the case of interim financial statements, annual financial statements and interim and annual MD&A, such documents must be reviewed and approved by the Audit Committee in accordance with the Audit Committee Charter following approval of the Disclosure Committee after which they will be forwarded to the Board as a whole for approval.

An example would be the discussion of trends and prospects for the Company in its MD&A.

h) Procedures Regarding Public Oral Statements

The procedures in this section apply to all Directors, Officers, Employees, Contractors and Spokespersons and any other person with actual or implied authority to make a public oral statement.

A **“public oral statement”** is any oral statement made in circumstances in which a reasonable person would believe that information contained in the statement will become generally disclosed. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company and/or its subsidiaries and/or its affiliated companies to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors include risks related to changes in, and volatility of, the price of gold; risks associated with operating in foreign jurisdictions; the speculative nature of gold exploration and development projects; permitting and title risks; risks relating to potential changes to governmental regulation; risks associated with the accuracy of mineral resource and reserve estimates; risks related to the fact that the Company has a history of losses and expects to incur losses for the foreseeable future; risks related to the reliance on the Company’s management team and outside contractors; risks related to drill shortages; risks associated with sample backlogs at assay laboratory facilities; risks related to the Company’s ability to finance the exploration and development of its mineral properties; risk relating to misrepresentations; uncertainties related to title to the Company’s mineral properties; risks relating to health concerns; environmental risks; operational risks and hazards inherent in the mining industry; risks associated with the potential inability to maintain available infrastructure; risks related to the potential unavailability of insurance to cover certain risks; risks related to increased competition in the mining industry; risks related to currency fluctuations; risks related to the fact the Company does not intend to pay dividends in the foreseeable future; risks that shareholders’ interest in the Company may be diluted in the future; factors that have historically made the Company’s share price volatile; risks for United States investors associated with possible PFIC status, as well as those risk factors identified in the Company’s publicly filed disclosure documents available at www.sedar.com. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results to differ from those anticipated, estimated or intended. Forward-looking statements contained herein are made as of the date of the applicable public record document which the information is derived from and the Company has disclaimed any obligation to update any forward-looking statements, whether as a result of new information, future events or results or otherwise. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements due to the inherent uncertainty therein.
