The Company uses such measures to provide additional information and they should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS. See “Non-IFRS Measures” in the Company’s MD&A for the fiscal year ended December 31, 2024 for additional information, a copy which is available on SEDAR+ at www.sedarplus.ca.

SOLICITATION OF PROXIES

This Circular is provided in connection with the solicitation of proxies by the management of Orezone Gold Corporation (the “**Company**”) for use at the Annual General and Special Meeting (the “**Meeting**”) of the holders of common shares of the Company to be held at the Company’s offices at Suite 450, 505 Burrard Street, Vancouver, British Columbia on June 12, 2025, including any adjournment(s) or postponement(s) thereof.

The solicitation of proxies by management is expected to be primarily by phone and internet and may be supplemented by mail or other personal contact by directors and management of the Company. The cost of solicitation of proxies will be borne directly by the Company.

APPOINTMENT OF PROXIES

The Company strongly recommends that registered shareholders exercise their right to vote by proxy prior to the Meeting either by mail, online or telephone, following the instructions outlined in the Circular.

If your intention is not to be present in person at the Meeting, you are asked to complete and return the enclosed form of proxy. The form of proxy must be dated and executed by a registered shareholder or the attorney of such shareholder, duly authorized in writing, and deposited with **Computershare Investor Services Inc., Proxy Dept., 100 University Avenue, 8th Floor, Toronto, Ontario, M5J 2Y1** no later than 9:00 a.m. (PDT) on June 10, 2025 or, if the Meeting is adjourned or postponed, no later than 48 hours preceding the date to which the Meeting is adjourned or postponed.

The persons designated in the form of proxy are directors or officers of the Company. **Each shareholder has the right to appoint a person to represent such shareholder at the Meeting, other than the persons designated in the form of proxy. A registered shareholder desiring to appoint some other person to represent such shareholder at the Meeting may do so by striking out the names of the persons designated and by inserting such other person’s name in the blank space provided in the form of proxy or by submitting another appropriate form of proxy. A person acting as proxy need not be a shareholder of the Company.**

REVOCATION OF PROXIES

A shareholder may revoke a proxy: (a) by depositing an instrument in writing executed by the shareholder or by an attorney authorized in writing: (i) at the registered office of the Company at any time up to and including the last business day preceding the day of the Meeting, or any adjournment thereof, at which the proxy is to be used, or (ii) with the chair of the Meeting on the day of the Meeting or an adjournment thereof; or (b) in any other manner permitted by law.

VOTING OF SHARES REPRESENTED BY PROXIES

If the enclosed form of proxy is properly completed and submitted in favour of the persons designated in the printed portion thereof, the shares represented by such form of proxy will be voted or withheld from voting on any ballot that may be called for in accordance with the instructions of the shareholder and where the person whose proxy is solicited specifies a choice

with respect to any matter identified therein, the shares shall be voted in accordance with the specification so made. **Where shareholders have not specified in the form of proxy the manner in which the designated proxy holders are required to vote the shares represented thereby as to any matter to be voted on, such shares will be voted on any ballot that may be called for in favour of such matter.**

The enclosed form of proxy confers discretionary authority upon the persons named therein with respect to amendments or variations to the matters identified in the Notice of Meeting and with respect to matters other than those identified in the Notice of Meeting, which may properly come before the Meeting. As of the date hereof, management of the Company is not aware that any such amendments, variations, or other matters are to be presented for action at the Meeting. **If any matters which are not now known to management of the Company should properly come before the Meeting, then on any ballot that may be called for, the persons appointed as proxy will vote on such matters in a manner as such persons consider to be proper.**

ADVICE TO BENEFICIAL SHAREHOLDERS

These securityholder materials are being sent to both registered and non-registered owners of the securities. Only registered shareholders or the persons they appoint as their proxies are permitted to vote at the Meeting. However, in many cases, shares beneficially owned by a person (a **"Non-Registered Holder"**) are registered either (a) in the name of an intermediary that the Non-Registered Holder deals with in respect of the shares (intermediaries include, among others, banks, trust companies, securities dealers or brokers and trustees or administrators of self-administered registered retirement savings plans, registered retirement income funds, registered education savings plans and similar plans); or (b) in the name of a clearing agency (such as CDS Clearing and Depository Services Inc.) of which the intermediary is a participant. In accordance with the requirements of National Instrument 54-101 – *Communication with Beneficial Owners of Securities of a Reporting Issuer*, the Company will distribute copies of the Notice of Meeting, this Circular, and the form of proxy (collectively, the **"Meeting Materials"**) to the clearing agencies and intermediaries for onward distribution to Non-Registered Holders. The Company will pay for the cost of intermediaries to deliver the Meeting Materials to Non-Registered Holders who have objected to intermediaries disclosing their beneficial ownership information. Neither the Company nor any of its subsidiaries will reimburse shareholders, nominees or agents for the costs incurred in obtaining authorization to execute forms of proxy from their principals or beneficial owners.

Intermediaries are required to forward the Meeting Materials to Non-Registered Holders unless a Non-Registered Holder has waived the right to receive them. Very often, intermediaries will use service companies to forward the Meeting Materials to Non-Registered Holders who have not waived the right to receive the Meeting Materials. These Non-Registered Holders will either: (a) be given a form of proxy which has already been signed by the intermediary, which is restricted as to the number of shares beneficially owned by the Non-Registered Holder but which is otherwise not completed. Because the intermediary has already signed the form of proxy, this form of proxy is not required to be signed by the Non-Registered Holder when submitting the proxy. In this case, the Non-Registered Holder who wishes to submit a proxy should otherwise properly complete the form of proxy and deliver it to the Transfer Agent as set out above; or (b) more typically, be given a form which, when properly completed and signed by the Non-Registered Holder and returned to the intermediary or its service company, will constitute voting instructions (often called a "voting information form") which the intermediary must follow.

In either case, the purpose of this procedure is to permit Non-Registered Holders to direct the voting of the shares which they beneficially own. Should a Non-Registered Holder who receives the form of proxy or voting instruction form wish to vote at the Meeting in person, the Non-Registered Holder should strike out the persons named in the form of proxy and insert the Non-Registered Holder's name in the blank space provided or following the instructions in the voting instruction form. In either case, Non-Registered Holders should carefully follow the instructions of their intermediary, including those regarding when and where the form of proxy or proxy authorization form is to be delivered.

If you receive either a proxy or a voting instruction form and wish to attend and vote at the Meeting in person (or have another person attend and vote on your behalf), you should strike out the names of the persons named in the proxy and insert yours (or such other person's name) in the blank space provided or, in the case of a voting instruction form, follow the corresponding instructions on the form. **In either case, please carefully follow the instructions of your broker, nominee or other service company.**

RECORD DATE

The Company has set May 5, 2025 as the record date (the **"Record Date"**) for notice of the Meeting and for voting. Only shareholders of the Record Date are entitled to receive notice of and vote at the Meeting, subject to the provisions of the *Canada Business Corporations Act*. Nevertheless, failure to receive the notice does not revoke the shareholder's right to vote at the Meeting.

AUTHORIZED CAPITAL, VOTING SHARES AND PRINCIPAL HOLDERS

The authorized capital of the Company consists of an unlimited number of common shares, of which 530,713,926 shares are issued and outstanding as at the date hereof. Each issued and outstanding share is entitled to one vote. Only persons who are shareholders of record on the Record Date will be entitled to attend and vote at the Meeting, in person or by proxy.

As at the date of this Circular, to the knowledge of management and directors of the Company, no persons or companies individually beneficially own, directly or indirectly, or exercise control or direction over more than 10% of the voting rights attached to all outstanding shares other than:

	Number of Shares	Percentage of Outstanding Shares
Nioko Resources Corporation	103,463,514	19.50%

FINANCIAL STATEMENTS

The audited financial statements of the Company as at and for the fiscal year ended December 31, 2024, together with the auditors' report thereon, and the accompanying management's discussion and analysis, are filed on SEDAR+ at www.sedarplus.ca and the Company's website at www.orezone.com. The financial statements will be placed before the shareholders at the Meeting.

The form of proxy includes an election to not receive the interim and/or annual financial statements and MD&A for 2025 and subsequent fiscal years.

BUSINESS OF THE MEETING

1. Election of the Directors

There are presently eight directors of the Company and the board of directors have fixed the number of directors at seven. Each director elected will hold office until the next annual general meeting or until a successor is duly elected or appointed, unless his or her office is vacated earlier in accordance with the by-laws of the Company.

As part of the Company's board renewal process, six of the current directors are being proposed for re-election at the Meeting, one new director will be proposed for election at the Meeting and two directors will retire after the Meeting. **For information regarding the Company's board renewal process, please see "Information Regarding Each of the Director Nominees" on page 6 of this Circular.**

Management does not contemplate that any nominee will be unable or unwilling to serve as a director, but if that should occur for any reason prior to the Meeting, the persons designated in the enclosed form of proxy have the authority to vote for another nominee at their discretion.

No proposed director is being nominated pursuant to any arrangement or understanding between the Company, the proposed director and any other person or company.

On August 31, 2022, amendments to the *Canada Business Corporations Act* (the "**CBCA**") came into force which impact how directors of CBCA corporations, such as the Company, are elected. As a result of these amendments, directors are not considered elected unless they receive more votes for their election than against at an uncontested meeting. The TSX has indicated that these amendments satisfy the TSX's requirement for majority voting for the election of directors. The Company repealed its majority voting policy since it is no longer necessary in light of the CBCA amendments and the TSX's position. As a result, at the Meeting, a nominee will only be elected if the number of votes cast in his or her favour represents a majority of the votes cast in respect of the nominee. You may either vote for or against the election of each nominee.

For information regarding each of the director nominees, please see "Information Regarding Each of the Director Nominees".

Unless otherwise instructed, the persons named in the accompanying proxy form or voting instruction form intend to vote FOR the election of the nominees as set forth in the accompanying proxy form or voting instruction form.

2. Stock Option Plan Re-approval

The policies of the TSX require that the unallocated securities under all security-based compensation arrangements which do not have a fixed maximum aggregate number of securities issuable thereunder, such as the Company's stock option plan (the "**Option Plan**") be re-approved by an issuer's shareholders every three years after the date of initial shareholder approval of the compensation arrangement. The shareholders of the Company approved the Option Plan at the 2022 annual general meeting held on June 15, 2022, and accordingly, the next shareholder re-approval must be obtained by June 15, 2025.

The Company's Option Plan is a "rolling 10%" stock option plan whereby the Company may, subject to limitations discussed below, reserve for issuance up to 10% of the issued and outstanding Common Shares from time to time. The combined total number of common shares of the Company issuable pursuant to any grant or award under all security-based compensation plans of the Company may not, at any time, exceed 10% of the then issued and outstanding common shares of the Company. As of the date of the Circular:

	Number ¹	% of the Issued and Outstanding Shares of the Company ²
Options issued:	20,798,898	3.92%
Options that are issuable ³ :	24,663,461	4.65%

1. The combined total number of common shares of the Company issuable pursuant to any grant or award under all security-based compensation plans of the Company may not, at any time, exceed 10% of the then issued and outstanding common shares of the Company.

The following is a summary of the principal terms of the Option Plan, which is qualified in its entirety by reference to the text of the Option Plan, a copy of which can be found under the Company's website at www.orezone.com. For the purposes of the description of the Option Plan below, unless otherwise defined herein, capitalized terms shall have the meanings ascribed thereto in the Option Plan.

The Option Plan includes the following provisions:

- (a) The purpose of the Option Plan is to: (a) promote the alignment of interests between directors, officers and employees of the Company and the shareholders of the Company; (b) assist the Company in attracting, retaining and motivating directors, officers and employees of the Company and of its related entities, (c) provide a compensation system for directors, officers and employees that is reflective of the responsibility, commitment and risk accompanying their management role over the medium term; and (d) allow directors, officers and employees to participate in the success of the Company over the medium term.
- (b) The Option Plan is administered by the board, or if the board so designates, a committee of the board appointed in accordance with the Option Plan. The board has delegated that the Corporate Governance, Nominating and Compensation Committee (the "**CGNC Committee**") may issue Options in accordance with the Option Plan and such Options will then be ratified at the next board meeting.
- (c) Options shall be granted only to board members, employees or consultants of the Company ("**Eligible Option Persons**") or to a registered retirement savings plan established and controlled by an Eligible Option Person and provided that in each case, the Eligible Option Person is an Eligible Option Person at the time of the grant.
- (d) Options may only be granted at a price not less than the closing market price of the Common Shares on the TSX the trading day immediately preceding the grant.
- (e) Subject to the discretion of the board, if any Eligible Option Person ceases to be an Eligible Option Person, for any reason, other than for cause or death, he or she may exercise any option issued under the Option Plan that is then exercisable, but only within the period that is 30 days from the date he or she ceases to be an Eligible Option Person. In the event of termination with cause, all options shall immediately be cancelled and be of no further force or effect.

- (f) Options granted under the Option Plan shall not be granted for a term exceeding five years subject to an extension for blackout periods. In the event an Option expires during a blackout period, subject to certain exclusions as set forth in the Option Plan, the Option shall remain exercisable until 10 trading days on the TSX after the end of such blackout period.
- (g) Options granted under the Option Plan shall vest in the sole discretion of the board and the Company's practice is to vest options as to $\frac{1}{3}$ on grant, $\frac{1}{3}$ on the first anniversary of the date of grant and $\frac{1}{3}$ on the second anniversary of the date of grant.
- (h) An option granted under the Option Plan is non-assignable and will terminate on the earlier of one year following the death of the optionee and the expiry date of the option; the board may extend the period of time within which an option held by an Eligible Option Person who has ceased to be an Eligible Option Person may be exercised, but such extension shall not be granted beyond the original expiry date of the option.
- (i) The maximum number of shares which may be issued under options granted under the Option Plan at any given time, is equivalent to 10% of the then issued and outstanding shares of the Company.
- (j) The combined total number of shares issuable pursuant to any security-based compensation arrangement of the Company at any point in time may not exceed 10% of the then issued and outstanding shares of the Company.
- (k) The number of shares (i) issued to insiders of the Company, within any 12-month period, and (ii) issuable to insiders of the Company, at any time, under the Option Plan, or when combined with all of the Company's other security-based compensation arrangements, will not exceed 10% of the issued and outstanding shares.
- (l) The number of shares issuable, within any 12-month period, under the Option Plan, or when combined with all of the Company's other security-based compensation arrangements, will not exceed (i) 5% of the issued and outstanding shares to any one person (including companies wholly owned by that person) and (ii) 2% of the issued and outstanding shares to persons employed to provide investor relations services.
- (m) The aggregate equity award value, based on grant date fair value, of any grants of Options under the Option Plan, in combination with the aggregate equity award value, based on grant date fair value, of any grants under any other security-based compensation arrangement that are eligible to be settled in shares, that may be made to an Eligible Option Person who is a member of the board of directors and not otherwise an employee of the Company, for a year shall not exceed \$150,000.
- (n) Subject to obtaining the prior written approval of the TSX, the board may at any time, and from time to time, and without shareholder approval, amend any provision or terminate the Option Plan, provided that such amendment:
 - (i) is an amendment to fix typographical errors or amendments to clarify the existing provisions of the Option Plan that do not substantively alter the scope, nature and intent of the provisions; or
 - (ii) is not an amendment to change the percentage of common shares issuable under the Option Plan; the limitations on common shares issuable to an Eligible Option Person (as summarized in subsections (j) to (m) above); the method for determining the exercise price of an option; the definition of an Eligible Option Person or the persons eligible to participate in the Option Plan; the exercise price of any option granted to an insider where such amendment reduces the exercise price of such option; or the expiry provisions of the Option Plan; or
 - (iii) is not otherwise proscribed by the TSX to require shareholder approval.

For clarity, the items listed in n(ii) require shareholder approval.

- (o) In the event of a take-over bid the board will have the sole discretion to amend, abridge or otherwise eliminate any vesting terms, conditions or schedule so that despite the other terms of the Option Plan, any options granted under the Option Plan may be exercised in whole or in part by an Eligible Option Person so as to permit Eligible Option Persons to tender the shares received upon the exercise of options pursuant to the offer.

- (p) In the event of a reorganization of the Company or the amalgamation, merger or consolidation of the shares of the Company, the board shall make such appropriate provisions for the protection of the rights of the optionee as it may deem advisable.

The approval of the shareholders is required in order to approve and confirm the Option Plan along with any unallocated options. At the Meeting, shareholders will be asked to consider, and, if deemed appropriate, to approve, with or without variation, the following ordinary resolution (the “**Option Plan Resolution**”).

To be adopted, the Option Plan Resolution needs to be approved by a majority of the votes cast by shareholders at the Meeting by proxy or in person. Management and the board recommend that shareholders vote FOR the Option Plan Resolution.

BE IT RESOLVED as an ordinary resolution, that:

2. The Company be and is hereby authorized to grant stock options pursuant to and subject to the terms and conditions of the Option Plan entitling the option holders to purchase common shares of the Company until June 12, 2028, being the date that is three years from the date of the shareholder meeting at which this approval is being sought for the Option Plan.
3. The combined total number of common shares of the Company issuable pursuant to any grant or award under all security-based compensation plans of the Company may not, at any time, exceed 10% of the then issued and outstanding common shares of the Company.
4. Any director or officer of the Company is authorized to execute and deliver all other documents and do all other acts and things as may be necessary or desirable to give effect to this resolution.

Unless otherwise instructed, the persons named in the accompanying proxy form or voting instruction form intend to vote FOR the adoption of the Option Plan Resolution authorizing the approval and confirmation of Company's Option Plan.

If the Option Plan Resolution is not approved, the Company will not have the ability to grant additional options under the Option Plan however all Options issued and outstanding will remain exercisable in accordance with their terms and conditions.

Management of the Company proposes that Deloitte LLP (“**Deloitte**”) be appointed as auditors of the Company until the close of the next annual general meeting of shareholders, and that the directors be authorized to fix their remuneration. Julian Babarczy – Nominee

In connection with the Company's proposed dual listing on the Australian Securities Exchange ("ASX"), the Company is seeking to enhance its board composition by appointing a director based in Australia. The addition of an Australian-based director is intended to support the Company's compliance with ASX corporate governance expectations, facilitate local market engagement, and provide strategic insight into the Australian investment landscape.

In late 2024 and early 2025, the CGNC Committee, as part of its mandate in regard to ongoing board renewal and in connection with the proposed ASX dual listing, commenced a search for an Australian based director. A number of candidates were considered based on their expertise and relevant skillset and discussed amongst the CGNC Committee and senior management.

Following an interview and vetting process, the CGNC Committee then selected Mr. Julian Babarczy as their recommendation to the board who agreed with the CGNC Committee's recommendation.

However, it faced slower-than-expected customer acquisition during a period when raising capital for private companies in Australia proved particularly difficult. Despite financial support from the directors, the decision was ultimately made to close the business due to its lack of commercial traction.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The following compensation discussion and analysis provides insight into the compensation that the Company provided to its Chief Executive Officer, Chief Financial Officer and the three most highly compensated executive officers of the Company (the "NEOs") for the year ended December 31, 2024 (the "2024 Fiscal Year").

For the 2024 Fiscal Year, the Company had the following NEOs:

- Patrick Downey, President & CEO
- Peter Tam, EVP & CFO
- Ryan Goodman, SVP & General Counsel
- Kevin MacKenzie, VP Corporate Development & Investor Relations
- Dale Tweed, VP Engineering

Setting Executive Compensation and Compensation Governance

The Company's CGNC Committee is comprised of independent members of the board: Joe Conway (Chair), Sean Harvey and Tara Hassan. Each member of the CGNC Committee has been in a senior leadership position in various organizations, and in those capacities obtained direct experience relevant to executive compensation and have the skills and experience that enable the CGNC Committee to make decisions on the suitability of the Company's compensation policies and practices.

The CGNC Committee meets at least twice per year, or more frequently as required and may also pass written resolutions as needed. The CGNC Committee held six meetings during the 2024 Fiscal Year. The CGNC Committee's primary functions with respect to executive compensation are to:

- assist the board in determining the appropriate level of compensation to pay the NEOs and directors; and
- review and approve the executive compensation disclosure included in the management information circulars.

The CGNC Committee is granted open access to information about the Company that is necessary or desirable to fulfill its duties.

Objectives and Elements of Compensation

Objective of Compensation Program

The Company operates the open pit Bomboré gold mine in Burkina Faso. Management of the Company has specialized skill and knowledge that are required in the exploration for minerals, and in the subsequent development, construction and operation of a mine. These include specialized geological, engineering, and related technical skills. Management has a thorough understanding of the political, cultural, legal and business environment in Burkina Faso through their history with the Company and previous experience working and conducting business in Burkina Faso and other regions of West Africa.

The Company's compensation program is designed to attract, retain and appropriately motivate highly qualified executive officers to drive shareholder value creation over the long term by promoting an alignment of interests between such executive officers and the Company's shareholders.

The Company believes the elements of the Company's compensation program is consistent with that of the Peer Group (discussed below). The compensation of the executive officers is based, in substantial part, on industry compensation practices (including the level of expertise of the officer, length of service to the Company, responsibilities related to the position and the individual's performance), trends in the mining industry and achievement of the Company's objectives. Compensation is also influenced by the need to retain and provide continuity of an experienced management team who can and will travel to places such as Burkina Faso so that the Company's business plan and corporate objectives can be achieved.

For the 2024 Fiscal Year, the CGNC Committee considered that the Company's compensation program should be balanced between reasonable annual compensation and short and long-term compensation tied to performance of the Company as a whole and individual performance based on Key Performance Indicators (further discussed below).

Elements of the Company's Compensation Program

The Company's compensation program is comprised of base salary, annual incentive compensation, equity-based awards and benefit plans. The CGNC Committee reviews each component of compensation (other than the benefit plans which is standard for its Canadian employees) for each executive officer and makes compensation recommendations to the board. In evaluating each executive officer, the CGNC Committee considers among other things, the recommendations of the CEO. The board reviews the recommendations and has complete discretion over the final amount and composition of each executive officer's compensation.

Component	Objective / Rationale
Base Salary	The primary element of the Company's compensation program is base salary. The Company's view is that a competitive base salary is a necessary element for attracting and retaining qualified executive officers. The amount of base salary payable to an executive officer is determined primarily by the level of responsibility and the importance of the position to the Company, and the range of salaries offered by comparable companies in a similar stage of development within the

Component	Objective / Rationale
Annual Incentive Compensation	<p>mining industry. Base salaries are reviewed annually by the CGNC Committee and recommendations are put forth to the board.</p> <p>An annual incentive is a discretionary short-term variable element of compensation that may reward an individual for corporate and/or individual performance. The CEO presents recommendations to the CGNC Committee with respect to bonuses to be awarded to the executive officers (including himself) and to the other employees of the Company. The CGNC Committee evaluates this utilizing the overall objective assessment process described above. The CGNC Committee then makes a determination of the bonuses to be awarded in respect of the past year and recommends such determination to the board.</p> <p>For the 2024 Fiscal Year, the CGNC Committee established a formal set of benchmarks or performance criteria to be met for a NEO to be awarded any amount as an annual incentive compensation. Please see <i>Compensation Policies and Benchmarking</i> and <i>Key Performance Indicators and Additional Requirements</i>.</p>
Equity-Based Awards	<p>The grant of stock options and/or restricted share units (“RSUs”) to employees is determined by the board from recommendations made by the CGNC Committee. The executive officers also play a role in that they recommend to the CGNC Committee the equity-based awards for non-executive employees. Individual grants are determined by an assessment of the individual's current and expected future performance, level of responsibilities, the importance of his or her position and contribution to the Company, and previous grants and exercise prices for options.</p> <p>For a summary of the Option Plan and Restricted Share Unit Plan, please see Schedule “B”.</p>
Benefit Plans	<p>The Company provides a benefit package to help ensure the health of its employees.</p> <p>In order to remain competitive in the labour market and to be able to retain and recruit qualified employees, and to assist employees with their retirement savings, the Company adopted a retirement savings contribution plan. Commencing for the 2024 Fiscal Year, the Company will make an annual retirement contribution equal to 5.0% of an employee's annual salary in the previous calendar year up to an individual maximum of \$15,000 per year.</p>
<p>No pension or retirement compensation plans, including defined contribution plans, have been instituted by the Company for its NEOs and none are proposed at this time.</p>	
<p>Compensation Policies and Benchmarking</p>	
<p>The following are key highlights of the Company's executive compensation plan that are in place to ensure good corporate governance.</p>	
Review of Compensation Risks	<p>A misalignment between the Company's vision and corporate objectives and employee performance and decision-making can be a significant risk. To date, the Company has not identified any risks arising from the Company's compensation policies and practices that are reasonably likely to have an adverse material effect on the Company.</p> <p>The executive team, CGNC Committee and board regularly reviews the Company's compensation policies and practices to manage ongoing motivation and retention and market competitiveness, as well as to encourage responsible and thoughtful decision making by employees that is focused and aligned with the efforts and priorities of the Company and its corporate objectives.</p>
Independent Advice on Compensation Levels and Practices	<p>In late 2023, the first full year after achieving commercial production at the Bomboré Mine, the CGNC Committee engaged Lane Caputo Compensation Inc. (“Lane Caputo”), a compensation consulting firm, to provide an independent, third-party analysis of the compensation levels and practices for the Company's senior executive team as well as the compensation for the board.</p> <p>Lane Caputo provided an assessment of the compensation levels the Company had in place in comparison to the Peer Group in order to reflect the transition of the Company as it evolved from a development stage company to a single asset operating company to a multi-asset operating company.</p>

Consistent with the Company's desired alignment of executive pay with performance and shareholder experience, Lane Caputo recommended a compensation strategy that targets fixed elements of compensation at the median of the market with short-term and long-term variable compensation allowing for above-market total direct compensation for high levels of corporate, individual and share price performance. The assessment resulted in a number of recommendations and adjustments, including salary adjustments to certain executive officers and board retainer fees.

The Company proposes to engage Lane Caputo, or a similar independent third-party in 2025, to provide an updated analysis of the Company's compensation levels and practices for the Company's senior executive team as well as the compensation for the board.

Peer Group

Standard compensation methodology involves benchmarking compensation practices against a group of companies of similar size with relevant operations in the same regional geography. The resulting peer group then represents a realistic market against which to define the Company's compensation strategy.

Compensation structure is strongly influenced by many factors including but not limited to, industry, development stages, size (market capitalization, enterprise value, production volumes and annual revenues), geographical similarity of operations and headquarter location of the corporate office.

To reflect the Company's current size and stage of development, the peer group used in the review completed by Lane Caputo included the following companies which the Company used as its benchmark for the 2024 Fiscal Year:

Aya Gold & Silver Inc.	Lucara Diamond Corp.	SilverCrest Metals Inc.
Calibre Mining Corp.	Orla Mining Ltd.	Torex Gold Resources Inc.
Galiano Gold Inc.	Resolute Mining Ltd.	West African Resources Ltd.
K92 Mining Inc.		

Relevant Performance Metrics

The performance metrics and expected performance levels for the annual incentive plan are reviewed on an annual basis to ensure the metrics and expected performance focus the NEOs on relevant activities for the business and align payouts to positive performance for the Company's shareholders. For 2024, this included: (i) production and cost execution at the Bomboré Mine; (ii) health, safety, environment and community; and (iii) risk management, legal and growth initiatives (including obtaining financing for stage 1 of the Phase II hard rock expansion).

At-Risk Pay

A significant portion of a NEOs compensation is related to at-risk pay including the use of share-based awards to align compensation to the share performance and as such a NEOs compensation may increase and decrease in alignment with the total shareholder return.

To further align compensation to the Company's share performance, the Company adopted a performance share unit plan (the "**PSU Plan**") in 2025 which is a non-equity incentive plan. The PSU Plan uses metrics such as total shareholder return relative to the performance of a junior gold index. Please see Schedule "B" for a summary of the PSU Plan.

Burn Rate

The Company's low annual burn rate reflects a disciplined approach to equity compensation, aligning with shareholders' interests by minimizing dilution and preserving long-term value. The burn rate for all equity-based compensation plans including directors and all employees of the Company for the 2024 Fiscal Year was 1.9%. Please see *Securities Authorized for Issuance*.

Anti-hedging

To mitigate compensation policies and practices that could encourage a NEO or individual to take inappropriate or excessive risks, rewards are subject to the approval of the board. In addition, all employees of the Company are also subject to the Company's Code of Business Conduct and Ethics which has been adopted by the board and signed by each employee on a yearly basis.

The NEOs and the directors are, under the terms of the Company's insider trading policy, prohibited from purchasing financial instruments designed to hedge or offset a decrease in the

market value of shares, including any shares granted as share-based compensation or otherwise held directly or indirectly by a NEO or a director.

Share Ownership Policy

The Company's share ownership policy sets forth the Company's share ownership guidelines to further enhance alignment of the interests of non-executive directors and executive officers of the Company with the Company's shareholders.

Clawback Policy

The Company's executive compensation clawback policy provides for the right of the Company to recover short and long-term compensation from any executive officer of the Company that has engaged in fraud, theft, embezzlement, serious misconduct or negligence that contributes to the requirement for a material restatement of the Company's financial results in order to comply with applicable securities laws.

Key Performance Indicators and Additional Requirements

For the 2024 Fiscal Year, executive management in consultation with the CGNC Committee, developed criteria applicable to various elements of executive compensation including performance metrics with respect to short-term ("STIP") and long-term ("LTIP") incentive plans that have been used by the Company.

These metrics included minimum, target and maximum amounts for incentives (based on the Lane Caputo analysis) and were based on key performance indicators ("KPIs") as further discussed below.

Position	Minimum	Threshold	Target	Maximum
CEO	0%	35%	100%	120%
CFO	0%	30%	80%	100%
VP level executives	0%	20%	60%	80%

Specific KPIs for the Company and individual performance and weighting used by the Company to determine a NEO's STIP and LTIP for Fiscal 2024 is discussed below.

The following specific KPIs and weightings were used to determine each of the NEO's STIP and LTIP for Fiscal 2024:

KPI's and Weight	Achievements – Fiscal Year 2024
Production 30%	<ul style="list-style-type: none"> • Gold Production Guidance Achieved: Gold production of 118,746 ounces ("oz") which exceeded the mid-point of guidance, marking the second consecutive year that the Bomboré Mine has met production guidance since the start-up of operations.
All-in Sustaining Costs 25%	<ul style="list-style-type: none"> • AISC Per Oz Within Updated Guidance: AISC per oz of US\$1,447 was within the updated guidance range with operating costs impacted by higher-than-anticipated government royalties and power costs. Relative to original guidance, government royalties were US\$31 per oz higher due to a better realized gold price and power costs were US\$57 per oz higher from lower-than-normal grid availability due to regional power issues in the H1-2024. These two cost overrun contributors were outside of the Company's control and if their cost impacts were removed, original AISC guidance of US\$1,300 per oz to US\$1,375 per oz would have been met.
Risk Management, Legal and Growth Initiatives 25%	<ul style="list-style-type: none"> • Phase II Hard Rock Expansion on Track for First Gold in 2025: The Company's Board approved a positive construction decision on stage 1 of the Phase II hard rock expansion on July 10, 2024 after the Company had secured US\$105M in binding debt and equity commitments, further described below, for construction. • Phase I Debt Reduced, Bridge Loan Repaid, and Phase II Expansion Financing Secured: Principal repayments totalling XOF 24.0 billion (US\$39.3M) were made on the Company's senior borrowings with Coris Bank, including the extinguishment of the XOF 12.0 billion (US\$19.8M) bridge loan. In August 2024, the Company completed a non-brokered private placement for net proceeds of \$64.8M (US\$47.3M) with a new cornerstone investor, Nioko Resources Corporation, a leading West African investment group. In December 2024, the Company successfully upsized its senior debt facility with Coris Bank through a new term loan for XOF 35.0 billion (US\$58.3M) ("Phase II Term").

KPI's and Weight	Achievements – Fiscal Year 2024
	<p>Loan) to be drawn in multiple tranches as construction progresses. The Company made its first drawdown of XOF 17.5 billion (US\$27.9M) on the Phase II Term Loan in December 2024.</p> <ul style="list-style-type: none"> • Multi-year Exploration Drill Program Initiated: In August 2024, the Company initiated a multi-year discovery focused drill program with an initial 30,000 m of drilling designed to test the broader size and scale of the Bomboré mineralized system. Initial results from drilling at the North Zone intercepted mineralization 240 meters below the current reserve pit limit, including 1.67 g/t gold over 46.00 meters, demonstrating the continuity and robustness of the mineralized system at depth, both in terms of grade and overall width (see October 10, 2024 news release). • Resettlement Action Plan (“RAP”) – Phases II and III: RAP Phases II and III commenced in 2023 and will see the construction of three new resettlement communities (MV3, MV2, and BV2) to help relocate households occupying areas within the southern half of the Bomboré mining permit. Both MV3 and MV2 were successfully completed in 2024 followed by the start of BV2 construction in late 2024. RAP Phase IV was presented as part of the Environment Social Impact Assessment submitted by the Company in 2024 to expand the current mining permit by an additional 5.56 km². • Enterprise Risk Management (“ERM”): The Company adopted a new ERM process in 2024 to better formalize its risk management practices. • Genser Damage Claim: The Company advanced binding arbitration pursuant to rules of the London Court of International Arbitration for its claim for damages against Genser Energy Burkina S.A. and its parent company (“Genser”) for past and future financial losses arising from Genser’s misrepresentation and breach of contract. An in-person hearing to present arguments with the arbitration tribunal is scheduled for June 2025 with an arbitration ruling to follow expected before the end of 2025.
<p>Health, Safety Environment & Community</p> <p>20%</p>	<ul style="list-style-type: none"> • Safety Performance: 5.4M hours worked without a lost-time injury and a low total recordable injury frequency rate of 0.75. A strong focus to reduce property damage incidents was made with no serious property damage events. • Environmental: No serious environmental incidents subject to a fine or a prolonged regulatory work stoppage. • Community: <ul style="list-style-type: none"> – Multiple livelihood restoration programs continued, and new programs commenced that have been positively received by the communities. – The Bomboré mine met Burkina Faso’s local content requirements. – Training for local recruitment and business continued. – Development of local suppliers (local transport, construction works, produce supply, uniforms, cleaning products, etc.). – Assistance to local suppliers for business document acquisitions. • Sustainability Report: The Company issued its inaugural Sustainability Report in 2024. The Company focused on the Sustainability Accounting Standards Board (SASB) for its key metrics.

For further information with respect to the stage 1 of the Phase II hard rock expansion, please see the Company’s press release dated April 16, 2025.

The board believes that each of the NEOs has met or exceeded the majority of targets in 2024. With respect to individual performance, the CGNC Committee considered that the performance of certain NEOs exceeded that expected of their position.

Overall, the board commended management and the entire team at Bomboré for successfully achieving gold production guidance for a second consecutive year with no lost time injuries while successfully maintaining strong and supportive local communities.

The CGNC Committee also noted that management and the Company have met or exceeded several targets with respect to production; risk management, legal and growth initiatives; and HSEC (health, safety, environment and community). The performance indicator that was slightly outside of target was with respect to all-in sustaining costs, however the cost overrun is primarily attributable to higher power costs due to lower national and regional grid availability (when compared to previous years) and higher government royalties from a better-than-budgeted gold price.

The following table shows the key categories of the Company's 2025 target corporate objectives:

Objectives	Weighting
Production	20%
AISC	20%
Health, Safety, Environment and Community	20%
Growth Expansion: stage 1 of the Phase II Hard Rock expansion and exploration success	30%
Relative Total Shareholder Return	10%

The following table shows the common shares held by the NEOs as of the date of this Circular and their value using the closing price of the common shares on the TSX as of May 9, 2025 (being \$1.11):

Performance Graph

The graph below compares the percentage change in the Company's total shareholder return on a \$100 investment in common shares to the total return of S&P/TSX Global Gold Index for a five-year period commencing January 1, 2020 and ending December 31, 2024.

	Initial Investment	2020	2021	2022	2023	2024

VanEck Junior Gold Miners ETF	\$100	\$130	\$100	\$87	\$93	\$106

As described above, the CGNC Committee considers various factors in determining the compensation of the NEOs and share performance is one measure that is reviewed and taken into consideration. A significant portion of a NEOs compensation is related to at-risk pay including the use of share-based awards to align compensation to the share performance and as such a NEOs compensation may increase and decrease in alignment with the total shareholder return.

With respect to the Company's share performance, during 2021 to 2022, the Company delivered the Bomboré project construction on schedule and under budget with first gold on September 10, 2022 and declaration of commercial production on December 1, 2022.

During the five-year period, certain geopolitical events have had an impact on the Company's share performance. The Company operates in Burkina Faso, a country that has seen an increase in terrorist or other violent attacks in certain parts of Burkina Faso (focussed generally on the border regions of the country). In recent years, Burkina Faso, Niger and Mali have experienced political instability marked by several coup d'état's with the most recent being Burkina Faso (January 2022 and September 2022), Mali (August 2020 and May 2021) and Niger (July 2023). In addition to political instability in the region, recent changes to Burkina Faso's mining code, royalty structure, and local content requirements, along with nationalistic statements made by the Burkina Faso government have impacted the Company's share performance.

One of the key challenges impacting the Company's share price performance was limited liquidity on the TSX, which at times contributed to heightened volatility and constrained trading activity. This current lack of liquidity made it more difficult for investors to enter or exit positions efficiently, amplifying price swings.

On February 23, 2025, the Company announced its intention to pursue a secondary listing on the ASX. The ASX secondary listing will complement the Company's primary listing on the TSX, with the goal of increasing the Company's trading liquidity and accessing a deeper pool of sophisticated investors including specialist mining focused funds. The Company is targeting a listing in mid-2025, subject to market conditions and the satisfaction of ASX listing requirements.

The ASX has a strong track record as a leading capital markets platform for mining companies. It provides a deep and liquid pool of institutional investors and market participants who have a strong understanding of the mining sector, and are limited or restricted to investing in ASX-listed issuers.

Termination and Change of Control Benefits

As at December 31, 2024, the Company had employment agreements containing termination and change of control provisions with each of its NEOs.

For purposes of the employment agreements, a “change of control” means: (i) any change in the holding of the shares in the capital of the Company as a result of which an entity or group of entities acting jointly or in concert (whether by means of a shareholder agreement or otherwise) or entities associated or affiliated with any such entity or group within the meaning of the *Canada Business Corporations Act*, other than the employee and his respective associates becomes the owner, legal or beneficial, directly or indirectly, of 40% or more of the shares in the capital of the Company or exercises control or direction over 40% or more of the shares in the capital of the Company; or (ii) a sale, lease or other disposition of all or substantially all of the property or assets of the Company (other than to an affiliate which assumes all of the obligations of the Company to the employee including the assumption of the employment agreement); or (iii) a reorganization, amalgamation or merger (or plan of arrangement in connection with any of the foregoing), not approved

by the board, other than solely involving the Company and one or more of its affiliates, with respect to which substantially all of the persons who were the beneficial owners of the shares in the capital of the Company immediately prior to such reorganization, amalgamation, merger or plan of arrangement do not, following any such event, beneficially own, directly or indirectly, more than 40% of the aggregate voting power of all outstanding equity shares of the Company; or (iv) a change in the composition of the board which occurs at a single meeting of the shareholders of the Company or upon the execution of a shareholder's resolution, such that individuals who are members of the board immediately prior to such meeting or resolution cease to constitute a majority of the board, without the board, as constituted immediately prior to such meeting or resolution, having approved of such change.

Under the terms of the employment agreements with the NEOs, no compensation other than compensation earned prior to the date of termination is payable by the Company in the event the employment agreement is terminated for just cause or voluntarily terminated. DIRECTOR COMPENSATION

The primary objective of the Company's director compensation program is to attract and retain qualified individuals to serve on the board and to incentivize the directors to contribute effectively to the strategic direction and oversight of the Company. The Company's director compensation program is designed to align the interests of the Company with those of shareholders, ensuring that directors are motivated to act in the best interests of the Company and its stakeholders.

The Company maintains a flat-fee compensation program consisting of an annual retainer (a cash incentive and a non-cash incentive) and additional compensation for being the Chair of the board, or a Chair or member of a board committee. No additional fees are paid to directors for attendance at board or committee meetings or any other meetings and no travel per diems or compensation for travel time are provided.

Directors' fees are recommended by the CGNC Committee based on a review of prevailing market conditions and a comparison to companies with similar lines of business, market capitalization and public stock exchange listings. This

recommendation is then subject to the approval of the board.

For the 2024 Fiscal Year, annual compensation for directors who are not NEOs consisted of the following elements:

Board Membership and Committees	Cash Incentive (C\$)	Non-Cash Incentive (C\$) ¹
Member: cash retainer and non-cash incentive	75,000	120,000
Chair: additional cash retainer and non-cash incentive	55,000	30,000
Audit Committee Chair: additional cash retainer	16,000	-
Committee Chair: additional cash retainer (other than the Audit Committee)	12,500	-
Committee Member: additional cash retainer	5,000	-

The non-cash incentives to be awarded are divided between deferred share units ("DSUs") and stock options, and that the DSU's will fully vest on the date of grant while the stock options will vest using the Company's customary vesting terms. The number of DSU's and stock options to be issued will be determined in accordance with each applicable plan. The board believes that inclusion of 'at-risk' compensation promotes the objectives of director retention and alignment with long-term shareholders.

Directors are also reimbursed for out-of-pocket expenses incurred for Company purposes.

The current board is comprised of a majority of independent directors and, for Canadian purposes, only Patrick Downey, the President and Chief Executive Officer of the Company, is not considered independent.

Assuming that all the proposed nominees are elected as directors at the Meeting, the board will be composed of a majority of independent directors and, for Canadian purposes, only Mr. Downey would not be considered independent.

In making the foregoing determinations, the circumstances of each director have been examined in relation to a number of factors, including discussions with each director and a review of the resumes of the directors and the corporate relationships and other directorships held by each of them.

The board facilitates its independent supervision over management of the Company by holding periodic meetings of the board to approve various appropriate matters and discuss the business and operations of the Company. The board has free access to the Company's external auditor and to any of the Company's executive officers. Directors are expected to attend board meetings and meetings of committees on which they serve and to spend the time needed and meet as frequently as necessary to properly discharge their responsibilities.

Position Descriptions

The Company has adopted written position descriptions for the Chair of the board and the Chief Executive Officer. Position Descriptions are further noted in each charter of the committees and are available on the Company's website.

Pursuant to the Board Mandate, the Board will maintain a formal program for the orientation and onboarding of new directors to assist them in understanding the Company's business, operations, governance framework, and their responsibilities as directors of a publicly listed entity. This program may include briefings from senior management, access to key corporate documents and policies, and meetings with other directors and committee chairs.

In addition, the board shall periodically assess whether there is a need for existing directors to undertake ongoing professional development to ensure they maintain the necessary skills, knowledge, and understanding to fulfill their duties effectively and to stay current with evolving governance, legal, and industry developments. Mr. Ryan Goodman, SVP & General Counsel, ensures the Company is compliant with Canadian corporate and securities laws, including the TSX.

Ethical Business Conduct

The Company's Code of Business Conduct and Ethics (the "**Code**") can be viewed on the Company's website or a copy can be obtained by contacting the Company. Each employee is provided a copy of the Code and must read and sign the Code upon commencement with the Company and thereafter on a yearly basis. The board encourages and promotes an overall culture of ethical business conduct by promoting compliance with applicable laws, rules and regulations in all jurisdictions in which the Company conducts business; providing guidance to directors, officers and employees to help them recognize and deal with ethical issues; promoting a culture of open communication, honesty and accountability; and ensuring awareness of disciplinary action for violations of ethical business conduct.

The Company has also instituted a "whistleblower" line whereby concerns can be reported anonymously online or a toll-free number. This policy has been distributed to employees and can be viewed on the Company's website.

Any director or officer that has a material interest in a transaction or agreement that is being considered by the Company is required to declare a conflict of interest and is excluded from voting and from the decision-making process with respect to that issue.

Nomination of Directors

The Company's CGNC Committee is comprised entirely of independent directors. A primary function of the CGNC Committee is the recruiting and reviewing potential nominees for directors of the Company to ensure appropriate skill and experience levels. The CGNC Committee provides its recommendation to the board and the board reviews and, if found acceptable, approves the recommendation.

The CGNC Committee assesses potential board candidates to fill perceived needs on the board for required skills, expertise, independence and other factors. Members of the board and representatives of the mining industry are consulted for possible candidates.

A primary function of the CGNC Committee is to assist the board in determining the appropriate level of compensation to pay the Chief Executive Officer, Chief Financial Officer, other executive officers and directors. For a detailed discussion of the steps taken to determine compensation for the directors and executive officers, please see "Executive Compensation" and "Director Compensation" in the Circular.

The CGNC Committee pre-approves all consultant mandates related to executive and director compensation, as well as the associated fees for such mandates. Assessments

The board, its committees and its individual directors are informally assessed regularly, and at a minimum on an annual basis, as to their effectiveness and contribution. The board, with the assistance of the CGNC Committee, monitors, assesses and reviews the performance and effectiveness of the board and its individual directors. Assessments are determined by examining a number of factors, including attendance at and participation at meetings, meeting preparedness, ability to communicate ideas clearly and overall contribution to effective board performance.

In 2024, the board completed a skills matrix to identify and evaluate the competencies and skills of the members based on the individual experience and background of each director. The skills matrix is reviewed and updated each year based on self-assessment by each director whereby each director is asked to rate their experience and background in a variety of key subject areas. This data is compiled into a matrix representing the broad skills of the current directors. This matrix will be maintained to identify areas for strengthening the board, if any, and address them through the recruitment of new members.

The following skills matrix outlines the experience and background of the director Nominees based on information provided by such individuals:

The Company anticipates that appropriate levels of turnover to continue through the normal processes in the future. Rather than instituting a policy of defining fixed terms or mandatory retirement for directors, the CGNC Committee will continue ongoing reviews of performance of the board as a whole, as well as individual performance.
